**ECLIPSE  
SEASON**

# ECLIPSES

Eclipses spiritually through the moon signify endings.

These will take place and activate different parts in your life unique to you.

Over next few pages I will show you what the eclipses which have been happening in the same signs of Taurus and Scorpio have been closing to you. The theme will be similar to those things which began in November 2021.

# ECLIPSES IN 2023

5th May 2023 Full Moon Lunar  
Eclipse Scorpio

28th October Full Moon Taurus  
Eclipse

# ECLIPSE SEASON CLOSING CHAPTER

Eclipses in Taurus and Scorpio began at the end of 2021 these will continued throughout 2022 and 2023. The signs most impacted are Leo, Taurus, Scorpio and Aquarius for the fixed signs.

Those ending, new beginnings which showed up at the end of the year of 2021 will continue to be a theme through the eclipses of 2022 and come to a close during 2023.

YOU CAN  
DO IT!

## **Taurus and Scorpio Eclipse**

The theme with these eclipses brings awareness to our attachment to home, financial stability and how we feel safe with the homey and earthly energy of Taurus. There could be a calling to take action and feel less stuck in the mud with Scorpio energy diving deep into the crevices of our soul and calling us to our purpose.

Reaching us out of our comfort zones and calling in transformation to note where in action keep us playing small and what steps we need to take to step into our fullest power.

## What they mean for you:

Here's a guide to the areas of your life where you may experience a theme of endings and new beginnings. Or, you're being called forth on a path of change & transformation. Read both your Sun sign & Ascendant sign (also known as rising):
