What does it mean?

Neptune will meet Jupiter in Pisces on the 12th April 2022.
The only one in our lifetime.

The last time this happened was in 1856 and it won't happen again in our lifetime.

The next time they meet will be 2188.

What does it mean for you?

It's a once in a lifetime to give your dreams an opportunity to come true.

This conjunction will show us the way in how we can set intentions towards our most inner desires and ambitions. The dreamy Piscean energy is potent in unlocking your deepest dreamiest desires and allowing them to come to fruition.

Some background Jupiter is the planet of luck, expansion and growth, adventure and aiming high.

Neptune is the planet of dreams, hopes and desires.

Both planets are ruled by that Piscean energy in the beautiful power to create and dream.
