Full Moon Gemini 7th December

This Gemini Full Moon is accompanied by Mars in Gemini retrograde until the 12th January.

Gemini energy is about connection, learning, growing and writing. We have had large number of planets in retrograde this year. Particularly around autumn time going into September with 6 planets all in retrograde.

Mars going retrograde for a little over 2 months it is leading us to review where we take action. It began in this season on the 30th October.

There could be a feeling of knowing in your soul you are going somewhere but feeling quite stuck with this combination. This full moon is likely to illuminate for you where you wish to write your next chapter and shine a deeper light on what holds you back. From the thoughts you think about yourself, from the actions you take and the words you use to describe yourself and your future. It's a time to review your main character energy. Where is she heading, what's required from you to take her there and how can you use words which cast a spell into your future that supports you.

New Moon Capricorn

Happening on the 23rd December with an added mercury retrograde in Capricorn too.

If the Gemini full moon and Mars retrograde in Gemini wasn't enough. The 4th and final retrograde is taking us in to 2023. A final review and reassess before we head into 2023. It may feel like things don't get started until the middle of the month or deeper clarity the planets and alignment are calling us to get super clear on our purpose and mission with 2023 being the year of 7 purpose and passion. This new moon is all about reviewing the foundations of where you are building your dream and carefully planning your next move. It's time to build stronger and clearer in your mission than ever before.

FULL MOON GEMINI

FOR THIS FULL MOON CONNECT TO WHAT YOU WANT TO REWRITE - HOW YOU WISH TO EXPRESS YOURSELF JUST FOR YOU.

Gemini Energy Loves learning, reflecting and growing. Connecting socially and being able to charm and outwit others. This full moon is asking you to see yourself in the crowd. To truly see how you show up. Look at spaces where you hold yourself back and think about what you are learning about yourself. To allow you to learn the skills required for your next chapter. It's your time to write it.

Air May 21 - June 20 - I think

1. Study and Learn - Something new, it's easy to not learn something new. It doesn't have to be something big like a new qualification it can be a new recipe or skill. What is it you want to learn more about? Learning something new builds our confidence and self esteem so it's a win win situation.
2. Socialise/Communicate - Make new connections or speak to your loved ones is there something you would like to talk about. How are you communicating your needs and showing up for yourself?
3. Communicate - Speak up and talk, write about things that matter to you. We can at times not use our own voice in fear of being our authentic selves, but actually someone would love to hear your message you never know who is listening.
4. Write - Journal how you feel or if you have ideas write about them let it free flow on to paper without structure or judgement.

When in balance: Articulate, witty, outgoing, pensive and versatile.

When out of balance: Non Committal, scatterbrain, nervous and chatty.
